

Distance restraints across symmetry operators

- Designed to stop atoms drifting from special positions

```
EXCLUDE A|457:O A|457:O  
NOTE BUSTER_DISTANCE +0.001 0.02 A|457:O A|457:O SYMM
```

- SYMM will find closest symmetry copy
- otherwise can specify by 2554
- Set up not automated (yet)
